

# Local Government, *Transformed*

Go paperless at a price you can afford

Just because you are a small municipality or county doesn't mean that you don't have big goals. Today's constituents are tech savvy, have transparency expectations and want to interact with their local government online.

It takes modern IT solutions to meet these expectations. If you are a small local government, you may have faced more than a decade of searching for ways to reduce the cost of government, become more efficient and still afford to modernize the technology that responds to your residents' demands. OnBase can help.

## The OnBase difference

With Hyland's special pricing for counties and municipalities below 250,000 in population, you can build a foundation for better government with a single platform that eliminates paper, recaptures staff time and connects to your existing solutions. That way you can provide the service your residents expect while reducing the costs, now and into the future.

## Bundle capabilities

The Hyland Local Government Bundle provides key functionality to increase staff efficiency, provide online services to your residents and reduce wasted time and costs going forward by eliminating paper and automating processes.

### Paper slows down government.

OnBase captures paper electronically so you don't need to keep it.

### Storing paper costs money.

With OnBase, eliminate storage costs with secure, electronic documents.

### Finding the right information when you need it is hard in a paper-based world.

OnBase offers search tools so staff can find what they need, fast.

### Switching between applications is typical, but slows down staff.

With OnBase, connect digital files with data systems to speed up task completion.

## A foundation for the future

With OnBase's modular approach, you can build on this bundle investment and add essential technology. Special pricing extends to legislative solutions like agenda and minutes, plan review, workflow, advanced capture, integrations to Microsoft Outlook, permitting solutions and more. These are the solutions government needs to continue to serve its residents efficiently and effectively. The OnBase investment you make today can continue to evolve and expand, affordably.
