All solutions and applications built on OnBase are available on-premises or in the cloud and benefit from these **core platform strengths**:

Mobile

Native apps developed for iPad®, iPhone®, Android® and Windows® Phone

Government Integrations

Esri®, Cityworks®, Infor Lawson®, Oracle®, PeopleSoft®, Tempest Prospero®, SAP®

Security

Native security options protect your information at rest, in motion and in use

With OnBase "One" means "One." The OnBase platform is not a collection of separate products presented under one brand or offered by the same vendor. OnBase is truly a single technology platform sharing one database, content repository and codebase. OnBase gives you one platform to install, upgrade, secure, protect and integrate, instead of a diverse portfolio of different information technologies to manage.
