

# Depend on Hyland Cloud

Safe. Secure. Reliable.

The Hyland Cloud is the most reliable and secure cloud for your content services needs. Our custom-designed cloud architecture supports a range of Hyland solutions, empowering organizations to modernize with confidence and ease while driving agility and innovation at a global scale. By incorporating the Content Innovation Cloud, you add an additional layer of value – connecting the Hyland Cloud to cutting edge, AI-powered solutions that enhance automation and decision-making. With the latest cloud technology, infrastructure and security in the hands of Hyland, you're free to focus on delivering exceptional business results.

## OnBase

Coordinate content, processes and cases for organizations. Manage mission-critical data and documents throughout the life cycle.

## Perceptive Content

Scalable content and process management suite. Manages the entire content life cycle from capture to disposition.

## Alfresco PaaS

Deploy quickly, scale easily and integrate seamlessly with this modern content services solution. Manage, protect and connect vital information to drive digital transformation, with content at the core.

## Nuxeo

Nuxeo is a cloud-native and low-code content services solution that specializes in rapid deployment and high scalability to accelerate application development and enterprise modernization in the cloud.

## Hyland Cloud certifications

Your content is your content — no one else's. It resides in data centers that meet or exceed required security standards, so only you can access it.\*

### Data centers

- SOC 2 and 3 audited
- SO 27001 certified (or local equivalent)
- TIA Tier 3 or 4 (or equivalent)

### Hyland Cloud Platform Engineering

- SOC 2 and 3 audited

## Practice makes perfect

Years of experience and billions of documents stored in the Hyland Cloud make for a mature and sophisticated solution.

**20+**  
years

**9 billion**  
documents and counting

## Hyland Cloud Platform Engineering

Certified cloud experts in security, infrastructure, network, development, support, compliance, database services, operations and additional areas administer and maintain solutions for Hyland Cloud customers **24/7/365**.

**Certified cloud experts**

## Scalable for business growth

As businesses evolve, their storage needs grow. Small business to enterprise storage requirements are accommodated in the Hyland Cloud.

## Hyland Cloud users

**7.7 million** and growing!

100 million+ logins each month

## Individual encryption protects data in all states

All documents stored in the Hyland Cloud are encrypted using a unique 256-bit AES encryption key. Data is protected while in use, in transit and at rest — and is kept separate from other organizations' content at all times.

## Data availability

Reliable, accredited data centers provide the highest levels of availability and uptime.

With industry-leading recovery point objective (RPO) and recovery time objective (RTO) commitments.

**24/7/365**

**99.99% uptime**

## Limitless industry possibilities

The Hyland Cloud accommodates organizations with even the toughest regulations and most stringent SLA requirements.

## Access your information however you want

Hyland Cloud provides users with flexible access to their documents and workflows anytime, anywhere.

### Access points

Desktop browser

Mobile device

## Average number of documents ingested across customer base

Per day	Per month	Per year
49 million	1.5 billion	18 billion

## Users around the globe meeting unique requirements

Your data is stored in-region to reduce latency and aid in meeting compliance requirements. Hyland Cloud accommodates organizations globally.
